BASA to provide SGP Services

Bhutanese SGP Team with ARA CEO Peter Laintoll

Bhutanese Association in Australia has been awarded AUD \$77,053.00 Settlement Grant Project (SGP) fund to help resettled Bhutanese in their process of transition and integration in South Australia.

The SGP is funded by the Department of Immigration and Citizenship (DIAC) for one year and is managed by the Australian Refugee Association (ARA) in collaboration with Bhutanese Association in South Australia (BASA). ARA has recruited Bikram Adhikari and Sushil Niroula from the Bhutanese community as the project officers to deliver the services to the community.

The fund will be used to provide a number of services to the eligible community members including case works, referrals and information sessions. This is the first ever SGP grant that the Bhutanese humanitarian entrants have exclusively received after their resettlement in SA began in early-2008.

Terming the ARA managed SGP for BASA a "milestone" for the Bhutanese in South Australia, BASA chairperson Jogen Gazmere said, "It is, in fact, the beginning of a new and significant chapter, where Bhutanese, in first hand, will learn the work culture and ethics of Australia. This will facilitate and pave way for the effective and healthier integration of Bhutanese in the broader Australian society."

The ARA Chief Executive Officer, Peter Laintoll similarly expressed his happiness over the awarding of the managed grant to BASA. He said, "ARA sees the awarding of the BASA managed grant as a clear indication of DIAC's support of building capacity of small and emerging communities. He was optimistic that with one year of mentorship, BASA will have the capacity to submit the SGP for 2011/12 financial year with BASA as Grant Manager and ARA providing a professional mentoring role."

According to Bikram Adhikari, the grant, besides providing community people with the settlement services when they exit from the IHSS programme, BASA will also focus on developing future leaders, equipped with professional skills to develop plans and programmes for the community independently. In October 2009, ARA had formulated a work-plan for a grant with the help of Mr. Adhikari under ARA Traineeship Program.

Chairperson's View

On 5th November 2009, BASA formally got incorporated as a community organization under the Association Act 1985 Section 20(1) of Government of South Australia. We are now very close to completing one year of incorporation and our organization continues to evolve and grow. Within this time period, the number of Bhutanese in South Australia has doubled with the population reaching 600 plus and more are expected to arrive in the coming months.

The year has been encouraging for the Bhutanese community to have continuous attention and support from the Lieutenant Governor Hieu Van Le, AO, Chairperson of Multicultural and Ethnic Affairs Commission. With the gracious support from the Lieutenant Governor, BASA was enabled to establish a fraternal relationship with Campania Sports and Social Club - one of the oldest Italian communities in South Australia. We look forward to strengthening our relationship with the Campania Community and enriching ourselves from their experience and support.

Receiving the Recognition Award from Multicultural Youth SA and Family SA, BASA has added a feather to its cap for encouraging and involving youths in its organizational activities. BASA has started to provide service to the Bhutanese community by commencing Settlement Grant Program in partnership with ARA, funded by the DIAC. Initiated by the Lieutenant Governor, BASA in conjunction with Salisbury City Council is on its way to begin social and recreational activities for the elderly in the Bhutanese community. BASA has also got the fund sanctioned from Community Benefit Grant for buying utensils for the community use.

We are happy of the fact that a large number of Bhutanese children and youth are pursuing their studies in different institutions satisfactorily. A good number of youth and adults have undergone vocational trainings in TAFE and other institutions and some are already employed. We yearn to see all the Bhutanese becoming educated, skilled, productive and well integrated in South Australia. Towards realising this, BASA, in the coming days, wishes to work closely with the government agencies, MRC, LCC, ARA, STARS, Migrant Health Service and other institutions and individuals.
